INTRODUCTION

This project is a Resume Web Page developed using HTML to create a structured and professional representation of an individual's profile. The webpage is designed to display important information such as personal details, career objective, educational qualifications, technical skills, projects, certifications, achievements, work experience, and hobbies in an organized manner. Various HTML elements including headings, paragraphs, tables, lists, and formatting tags have been used to enhance readability and presentation. The project demonstrates the practical application of basic web development concepts while creating a simple and effective digital resume.

<h2><u>SKILLS:</u></h2>

Cybersecurity & Digital Forensics

Kali Linux

Burp Suite

- Metasploit
- Wireshark
- IDA Pro
- Maltego
- Shodan

<hr>

<h2><u>PROJECTS:</u></h2>

<p>

Developed a Game Popularity Analysis project to study trends in the video game industry using data visualization and analytical techniques. The project focused on identifying factors influencing game popularity, player engagement, and market performance across different gaming platforms.

</p>

<hr>

<h2><u>CERTIFICATES:</u></h2>

<p>

Completed professional training programs in Cybersecurity, Digital Forensics, Ethical Hacking, and OSINT methodologies through internships and industry workshops. </p>

<hr>

<h2><u>ACHIEVEMENTS:</u></h2>

<p>

Secured First Place in the OSINT Capture The Flag (CTF) Competition among 100+ participants, demonstrating strong open-source intelligence gathering and cybersecurity analysis skills.

</p>

<hr>

<u>WORK EXPERIENCE:</u></h2>

<p>

Kerala Cyber Cell – Intern (Jun 2024)

Assisted in analyzing cyber threats, digital forensics, and cybercrime investigations while gaining practical exposure to cybersecurity practices.

</p>

<p>

Offenso Hackers Academy Pvt. Ltd. – Participant (Aug 2024)

Participated in cybersecurity workshops and OSINT activities, gaining hands-on experience with threat analysis and vulnerability assessment. </p>

<p>

SciPy Technologies – Intern (Feb 2025 – Apr 2025)

Worked on cybersecurity frameworks and AI-driven threat detection while resolving code issues and contributing to technical projects.

</p>

<u>HOBBIES:</u></h2>

```

- Problem Solving

CONCLUSION

The Resume Web Page project successfully demonstrates the use of HTML to create a well-structured and professional resume. By utilizing various HTML elements such as headings, tables, lists, and paragraphs, the webpage effectively presents personal, academic, and professional information in an organized format. This project helped in understanding the fundamentals of web page design and highlighted how HTML can be used to develop simple yet informative websites.
