INTRODUCTION

This project is a Personal Portfolio Website developed using HTML and CSS to showcase personal, academic, and professional information in an attractive and organized manner. The website consists of multiple sections, including Home, About, Qualifications, Skills, and Projects, allowing visitors to easily navigate through the content. CSS styling has been used to enhance the visual appearance and create a user-friendly interface. The project demonstrates the application of basic web development concepts and responsive webpage structuring.

INPUT CODE

```
<html>

<head>

  <title>Arbab Portfolio</title>

  <style>

*{

  margin: 0px;

  padding: 0px;

}

  h1 {

Sequi quis molestiae optio architecto earum, dolore in, nemo aliquam expedita sapiente numquam distinctio tempora nam debitis iure iste quibusdam dicta, perspiciatis dolores exercitationem? Earum.

CONCLUSION

The Personal Portfolio Website project successfully demonstrates the use of HTML and CSS to create a structured and visually appealing web page. By incorporating navigation links, content sections, and customized styling, the website effectively presents personal and professional information. This project helped in understanding webpage layout design, styling techniques, and the fundamentals of front-end web development.
